

## [Family History for Beginners: Primer Level Prerequisites, Part 3](#)

Over time, you have been exposed on this Facebook group to information overload through its many postings. Fear not, this installment presents family history basics at a primer level with concise and simplified articles before engaging in genealogical pursuits. As emphasized in previous postings, **The Family History Guide** is the leader in providing essential tutorials focusing attention to the four major web-based resources on the Internet: **FamilySearch, Ancestry, My Heritage and Find My Past**. Their tutorials focus on the best ways to learn and use these and other cutting-edge web-based technological resources. Below is their initial curricula for learning family history basics in getting prepared to work on their Family History Guide Projects. Click on any of the links below to be more fully investigated at: <https://www.thefhguide.com/begin.html#fhh> that is organized in five areas: 1) [Family History Basics](#), 2) [About Genealogy](#), 3) [Family History Terms and Concepts](#), 4) [Getting Started](#) and 5) [Additional Resources](#). Explore the links on this website and you will find an enriching and informative series of articles to glean from to motivate one in their genealogical endeavors.
