This Foothills Ward Temple and Family History Group is humongous with 900+ entries. If you want to review any of them conveniently, most of them can be retrieved seamlessly via our unique coordinated Table of Contents at <https://foothills-family-history.org/>. For any of your friends who don't have a Facebook account, this table of contents at the top of the opening page with two links is organized both alphabetically by topics and a full table of contents. Temple photo credits are by our faithful Facebook follower, President Ivan Majc, of Slovenia, who is a professional photographer. This table of contents design was created for us by Corey Hixson, a member of the Foothills Ward. See below for a sample article posting search on "Research."

Here are samples of these informative two tables of contents below. To find any "how to" topic, click its link and you will have multiple articles to peruse. The reason you don't need a Facebook account at all is because all articles were also posted separately to my own website for that very purpose.
