

# Ten Unique Workshop Features!

1. World-wide continuous interactive videoconferencing classroom 32+ hours with two TI:ME certified instructors without any travel, room & board expenses and/or in Golden, Colorado
2. Affordable prices with \$\$ rebates for exceeding minimum enrollment (up to \$250 rebate back for successfully completing each workshop). See [www.kuzmich.com/SlidingFeeSchedule2.html](http://www.kuzmich.com/SlidingFeeSchedule2.html) for details.
3. Graduate level college credit at VERY, VERY affordable rates. Again, see the above link!
4. Plan right now as no workshops ever get cancelled regardless of enrollment, even if only 1 or 2
5. You can choose to take interactive e-video classes from the comfort of your own home or school or take classes at my home studio in lovely Golden, Colorado.
6. All instruction is synchronous with constant interaction with faculty members for the entire 32+ hours for each workshop which is unprecedented in the music technology market.
7. All TI:ME workshops are a [full five-days](#) instead of the traditional four-day format.
8. We offer the most TI:ME workshops over the Internet and have successfully taught music technology workshop via video conferencing to music educators since 2006.
9. State-of-the art computers are used to teach the latest technology innovations with workstations in my home studio.
10. Peruse my nationally published music technology column for a multitude of instructional topics from over 200 articles publishing articles monthly in [School Band & Orchestra](#) magazine since 1999. See [www.kuzmich.com/bibliogrpahy](http://www.kuzmich.com/bibliogrpahy) and [www.kuzmich.com/articles.html](http://www.kuzmich.com/articles.html) for direct links on a wealth of published topics in national magazines.
