118	?	?				
119	?	?				
120	?	?				
121	?	?				
122	?	?				
Magic Number=====		50				
Import Hints:						
Square the Number = Count by cell times itself						
Double the Number = Count by cell times two						
Count by						
	Square the number	Double the number				
	to the left	above				
1	's	?		?		
2		?		?		
3		?		?		
4		?		?		
5		?		?		
6		?		?		
7		?		?		
Bowling Tournament						
Impotant Hints:						
Averages have the following formula =(week 1, 2, 3 4 5 cells clicked on,						
close parenthensis and divide 5						
Team Average equals =(averages for each player by clicking on each one,						
then close the parenteses, then divide by 7)						
Name	Week 1	Week 2	Week 3	Week 4	Week 5	Average
Jamie	134	122	115	132	98	?
Mattie	111	100	132	134	129	?
Josh	132	195	92	134	175	?
Amber	122	123	111	134	175	?
Sarah	98	111	125	145	198	?
Wendy	178	153	130	112	110	?
Pete	210	0	195	0	132	?
