

And, as if that isn't enough, all Finale 2002 purchasers now receive:

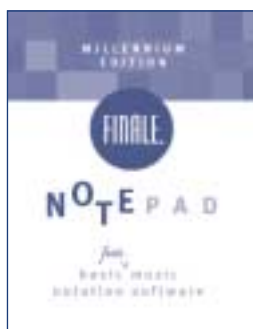

SmartMusic® Studio

Now you can save your Finale files as SmartMusic Accompaniments!

SmartMusic Studio, with the exclusive Intelligent Accompaniment® feature, is the ultimate tool for practicing musicians. It makes practicing fun, instead of a chore. You practice your favorite solo pieces with professional accompaniments featuring authentic basso continuo, full orchestra, piano, jazz trios, even rock/pop bands. And you'll have more than 5,000 published accompaniment titles to choose from, in addition to those you create yourself in Finale. SmartMusic Studio subscription required.

The World's best-selling and most-popular music notation software

Band-in-a-Box® Auto-Harmonizer plug-in included FREE

Takes away detail drudgery
Sparks your creative imagination

New

Band-in-a-Box®

Auto-Harmonizer adds harmonies automatically!

Powered by Band-in-a-Box, for years among the most popular music software programs, this incredible FREE plug-in lets you automatically create an entire orchestration from any melody with or without chord symbols.

Start with a melody:

Specify two- to six-part harmony, then choose from a great variety of harmonic options: open/closed, drop 2, drop 3, barbershop, super sax, etc.

and in just two clicks you'll have this!

One click turns this:

into this:

New

SmartFind™ and Paint

If you have frequently repeated rhythmic patterns that require the same slurring, articulations and expressions, this feature will save you hours of painstaking work. Select a group of notes with a desired articulation and SmartShape pattern and mark that pattern as a "style." Then simply apply to any other selected region—even an entire part or score! SmartFind and Paint will search out all rhythmically identical regions and place slurs, expressions, articulations, etc.—automatically.

New

The Exercise Wizard

More than 56,000 customized exercises, instantly.

With the exclusive Finale 2002 Exercise Wizard, you can create one or many exercise lessons in an instant. Just select the mode, note duration, intervals, articulations and key range.

If you want exercises for an ensemble, just select from the ensemble list and print. You can also customize your ensembles and number of copies. Create the perfect lesson to work out a particular problem area in seconds.

Select your exercise:

And get this:

Additional Time Savers that no other

The World's Smartest Engraver Slurs

No collisions with stems, beams or accidentals—even after transposing or part extraction!
And it's never been easier to alter slurs.

You used to get this:

Now you get this,
automatically!

With easier, more flexible, editing:

The Simplest Note Entry Imaginable

Place a sharped, dotted quarter note on the staff in one easy motion. That's how simple it is to use our new Simple Note Entry. The cursor shows exactly what you've selected. Then just click and drag to move the note or rest.

New additions to the Simple Entry palette include a Sharp, Flat and Easy Tuplet Tool.

Enhanced Selection Tool

Click on an item and move it. Nudge, edit, drag and delete any note, expression, slur, articulation, chord, text item, lyric and just about anything else you can think of—without having to choose the right tool or read a manual.

Improved Percussion Mapping

Getting your percussion parts to look and sound right has never been simpler. MIDI files open up with drum parts needing no further editing.

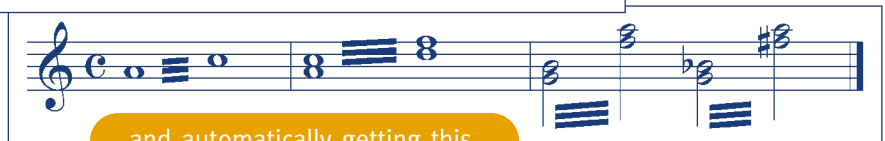

Easy Tremolos

Want to play it back? No problem. Plug-ins for playback of glissandi, hairpins, and trills are also available.

Imagine typing this:

and automatically getting this.

notation program has!

And more!

- String Harmonics are now incredibly fast and easy
- Vertically align all selected dynamics, text expressions and even hairpins. Instantly, all at the same time.
- Automatically apply additional beaming options for the most elegant beams imaginable.
- Assign note durations to the keys of your MIDI keyboard for the fastest Speedy Entry ever.

Finale 2002 not only helps you notate, it sparks your creative imagination.

We are pleased to bring you this amazingly cool set of “Idea Generators”

Composer's Assistant

This incredibly liberating tool was created with IRCAM, Pierre Boulez' Computer Music Compositional Laboratory. All ten Composer's Assistant plug-ins rapidly generate many musical possibilities to spark your imagination, giving you a huge set of creative ideas upon which you can base your music.

Rhythm Generator

instantly creates up to six staves of percussion that can accompany your composition.

Melodic Morphing

will create an amazing melodic transition from one melody to another.

Virtual Fundamental

automatically gives you the appropriate “root” for any selected group of chords.

Chord Reordering

finds new placement options for your chords you might not have thought of.

Common Tone Transposition

creates a series of transpositions of the original chord where one note is equal to one note of the original chord.

Tie Common Notes

inserts a tie between any two successive notes if these two notes have the same pitch.

Plus

4 more plug-ins to help you expand your creative options.

Use the Finale 2002 Music Creation Tools

- Band-in-a-Box Auto-Harmonizer
- Exercise Wizard
- Composer's Assistant

to generate incredible artistic power you could never get from a notation software program before now.
